CULTIVARS OF CHESTNUT

Chestnut trees have been selected for their characteristics in all of their native countries, and people have propagated those with bitter nuts or straighter trunks to suit their needs. "Named cultivars" are clones of trees with desirable characteristics. Since they are identical, and chestnuts will not self-pollinate, two or more cultivars (or some seedlings which are all different) must be planted to provide pollen for each other. Some hybrid chestnut trees are male-sterile and produce no pollen, and that is indicated on the list below. Cultivars are grafted onto compatible rootstocks, and are sold by many nurseries. Information on nut size has not been systematically collected in all of the U.S. growing regions for cultivars, so the list below has only general information for most of them.

A Named chestnut cultivars: names in bold type have been available from nurseries in the U.S., Western Europe, and Asia;
prepared by S. L. Anagnostakis, 1 January 2013

cultivar name	pedigree	origin	named	chestnut blight	Ink disease	gall wasp	nut weight, gms/nut	perox type	pellicle removal	other characteristics
Abadá			Spain				36 gms		poor	insipid nuts, 26 Oct. - 11 Nov.
Abarcá (Amarelante)			Spain				49 gms		variable	sweet nuts, 26 Oct. - 11 Nov.
Abundance	*mollissima*									
Ace	*dentata* x *mollissima x sativa*									
Adkins AE-E1	*mollissima*									
Advance	*crenata*									
Agostana	*sativa*		Italy							
Aguyane	*sativa*			rr						CTPS #92773
Aifeng	*mollissima*	China								
Aioi	*mollissima*	China	China							
Akachu (Akaju)	*crenata*	Japan	Japan							
Akanaka	*crenata*					r				
Alachua	*mollissima* x *dentata* hybrid,		U.S.A., R. T. Dunstan	r			16 gms			
Alaling	*mollissima* hybrid									
Alamoore	*crenata* x chinquapin hybrid			r						
Albomarginata	*sativa*	England	England							silver leaf margins
Alisgiana	*sativa*		Corsica							
Alotta	*sativa*		Italy							
Alpha	*crenata*	U.S.A., NJ	U.S.A., Parry				large			Parry, seedling of Giant, dark nuts, early, productive
Altre										
Amadengue	*sativa*		Spain				56 gms		good	sweet nuts, nuts 26 Oct. - 11 Nov.
Amarelal	*sativa*		Portugal							
Amarelante (Marela, Marelal, Amarela/o, Abarca, Anchas)	*sativa*		Spain				51gms			flavor sweet, nuts 26 Oct. - 11 Nov.
Amarelante	*sativa* (Amarelante clone)	Spain	Spain				14 gms		poor	flavor sweet, nuts 26 Oct. - 11 Nov.
Amarelante Ourense	*sativa* (Amarelante clone)	Spain	Spain				37 gms			flavor sweet, nuts 26 Oct. - 11 Nov.

Amy (72-400)	*mollissima* hybrid		U.S.A., G. Miller	r			12 gms	BB		14-22 Sept.
Anaxa	*sativa*		Spain				42 gms		average	sweet nuts, nuts 26 Oct. - 11 Nov.
Anderson	*sativa* hybrid		U.S.A.				average			hardy, small leaves
Anny's Red										
Anny's Summer Red										
Arafero	*sativa*	Tenerife	Spain							Harvest 31 Oct.
Areal (Monfortina)	*sativa*		Spain				37 gms		good	sweet nuts, >11 Nov.
Argentovariegata	*sativa*	England	Italy							periclinal chimera, variegated leaf margins
Ariata	*sativa*		Corsica							
Arima	*crenata*	Japan	Japan				17 gms			17 to 28 Sept.
Arimawase	*crenata*	Japan	Japan							
Arizinca	*sativa* hybrid									CTPS #92781
Armstrong	*mollissima* hybrid	U.S.A.	U.S.A., Univ. of Kentucky	r			16 gms			sweet, good flavor, 19 to 29 Sept.
Arvenne	*sativa*		Italy							
Asplenifolia (Comptonifolia, Dissecta, Dissecta Nova, Filipendula, Heterophylla, Linearifolia, Salicifolia)	*sativa*	England	Italy							irregular leaf margins
Atwood	*?*		U.S.A.							
AU Cropper	*mollissima*	U.S.A.	U.S.A., Auburn Univ.	r			10 gms			17 to 29 Sept.
AU Homestead	*mollissima*	U.S.A.	U.S.A., Auburn Univ.	r			15 gms			better cooked, 16 to 29 Sept.
AU Leader	*mollissima*	U.S.A.	U.S.A., Auburn Univ.				12 gms			8 to 19 Sept.
AU-Super	*mollissima*	U.S.A.	U.S.A., Auburn Univ.				25 gms			16 to 23 Sept.
AU- (several numbers)	*mollissima*	U.S.A.	U.S.A., Auburn Univ.	r						
Auphineng	*sativa*		France							

Aureomaculata	*sativa*	England	Italy							wide yellow and greenish-yellow patches in the middle
Austin	*?*									
AU-U	*mollissima*	U.S.A.	U.S.A., Auburn Univ.	r						
Augenstein	*mollissima*									
Aveleira	*sativa* hybrid		Portugal							
AW 74 (Big Bur)	*crenata* x *sativa*		France

Barchese	*sativa*		Italy							
Barsanina	*sativa*		Italy							
Bartlett	*mollissima*	China, Pang Shan	U.S.A.	r						PI #36666 “Lee Tze”
Barton	*sativa* hybrid		Australia							
Bartram (Bartram Late)	*sativa* hybrid		U.S.A.				average			vigorous, productive, spreading, large leaves, insect resistant (?)

Bastarda - nera di Arcidossa, rossa di Arcidosso	*sativa*		Italy							
Bastarde (Bastard, Bastardo, CA 220)	*sativa*									
Bastardo- nero, rosso	*sativa*		Italy							
Bastellicaciu	*sativa*	France	Italy							CTPS #92776
Basturella	*sativa*		France							
Batacchione	*sativa*		Italy							
Batarde	*sativa*		France							
Batlow	*sativa* hybrid		Australia							
Baudinenque	*sativa*		France							
Baumelene	*sativa*		France							
Beaulieu	*sativa*		France							
Behind the Broadview	*sativa* hybrid									
Belle Epine (CA 114)	*sativa*		France				14 gms	BB		CTPS #92831, late pollen, good pollinizer, late nuts, medium flavor
Bellina	*sativa*		Italy							
Benfeita	*sativa* hybrid		Portugal							
Berciana	*sativa*		Spain				5 gms		good	sweet nuts, >11 Nov.
Bergantz	*crenata* hybrid	U.S.A.	U.S.A., M. Nave				41 gme		peels well	very good flavor, pretty nuts
Bermella (Bermellas, Bermellá, Bermellal)	*sativa* hybrid		Spain							
Bernard	*sativa*		France							
Beta	*crenata*	U.S.A., Parry, NJ	U.S.A.				average			light brown nuts, Parry seedling
Beth	*mollissima*	U.S.A.	U.S.A., Greg Miller	r			11 gms			good flavor, ~8 Sept.
Bianchetta	*sativa*		Italy							
Biancola	*sativa*		Italy							
Biddle	*crenata*	U.S.A., NJ	U.S.A.				large			light brown nuts, vigorous tree
Big Boy										
Bingham (several numbers)	'Colossal' seedling		U.S.A.							

Bionda di Mercogliano	*sativa*		Italy							
Bisalta #2	*crenata*		Italy					AB		
Bisalta #3	*sativa x crenata* hybrid		Italy				17 gms	AB		large nuts, good flavor, 9 to 18 Sept.
Bittiet	*sativa*		France							
Black (Dr. Black)	*crenata* seedling	Japan	U.S.A., NJ				average			dark brown nuts, precocious, vigorous tree
Black Beauty	*mollissima*			r						
Blair	*?*									
Blanca (Balnco, Blanquillo/a, Branca, Blancas, Blanquín, Blanquiño/a Blanquita)	*sativa*		Spain				60 gms		good	sweet flavor, nuts 26 Oct. to 11 Nov.
Blanca Ourense	*sativa* (Blanca clone)		Spain				9 gms		medium	variable flavor, nuts 26 Oct. to 11 Nov., male sterile
Blanquiare	*sativa*		France							
Blue Ridge	*mollissima x dentata*		U.S.A.							
Blume	*?*									
Bodrasca	*sativa*		Italy							
Boglia	*sativa*		Italy							
Bolesas	*sativa*		Spain							
Boltalina	*sativa*		Italy							
Bon-ichi	*?*									
Bonasola	*sativa*		Italy							
Bonere	*sativa*		Italy							
Bonese	*sativa*		Italy							
Boone	*crenata* x *dentata*		U.S.A., G. W. Endicott							
Borgovelino	sativa		Italy							
Borntrager										
Boshi No. 360	*mollissima*	China	Japan							very cold hardy
Bossue	*sativa*		France							
Bost	mixed parentage	U.S.A., Nevada City, CA	U.S.A., M. Nave				18 gms			18 to 26 Sept.
Bottaciola	*sativa*		Italy							
Bou Boussu	*sativa*		France							
Bouchasse	*sativa*		France							
Bouchat	*sativa*		Italy							

Bounty	*sativa hybrid*		New Zealand							
Bouche de Betizac	'Bouche Rouge' x *crenata*	France	France, INRA 1962	r	r	r	20 gms	BB	good	pollen sterile, vigorous, good flavor, tolerates heat, nuts 2-3 weeks later than 'Colossal', double embryos CTPS #92782
Bouche de Clos	*sativa* hybrid		France							
Bouche du Bacon			France							CTPS #92743
Bouche Rouge (Marron de Vesseaux)	*sativa*		France					BB		CTPS #92832, late, flavor good, pollen sterile
Bournette (112)	*crenata* x *sativa*	France	France, INRA					BB		CTPS #92774
Bourrue de Juilhac	*sativa*	France	France							CTPS #92744
Borra	*sativa* hybrid									
Bouru	*sativa*		France							
Bowman	*?*
